

# The Autumn Rimfire Festival

At Budleigh Farm, Moretonhampstead on  
Sunday 28<sup>th</sup> September 2008

A steel challenge (falling plate) event will be held on Sunday 28<sup>th</sup> Sept at Budleigh TSC, Budleigh Farm, Moretonhampstead, Devon. Competitors must use a lightweight sporting rifle/small bore gallery rifle/ rimfire carbine. This is a rapid fire event and the use of semi-automatic rifles is recommended. All shooting is from the standing position. No specialist shooting clothing is permitted **nor is the use of slings**. Please bring the usual eye and ear protection. No competitor will be allowed on the firing point **without eye protection**. A pair of spectacles is considered sufficient. You should allow for the use of at least 300 rounds. A full selection of **approved** ammunition will be available for sale on the day. (See note on acceptance form as to what constitutes approved ammunition. Essentially no high velocity or hollow point ammunition - only approved brands will be permitted.) You may use more than one rifle on the day. On each occasion the winner has never needed more than one! Please bring at least two 10-round magazines.

I would be very grateful if you would be prepared to volunteer as range officers in the squad in which you are not shooting.
